

CYBERSECURITY STRATEGY AND RISK MANAGEMENT

NAVIGATION GUIDE

1. After you have purchased the [Cybersecurity Strategy and Risk Management](#) online course, and you are now logged into our learning platform, you will see the following information related to the online course:
 - a. Description of the online course,
 - b. Learning Objectives,
 - c. Course Modules & Duration
 - d. Certification Details, and
 - e. Navigation Guide.

2. In this case, you should scroll down and go to the **Course Content** section. Below is an illustration of how to follow the path to view the modules/topics of this online course.

The screenshot displays the 'Course Content' section of an online course. At the top left, the title 'Course Content' is shown in a dark blue font. To the right of the title is a red button with a white downward arrow and the text 'Expand All'. Below the title, there are five module cards, each with a white radio button on the left, the module title, the number of topics, and a red 'Expand' button on the right. The modules are:

- Module 1: Cybersecurity Strategy Fundamentals (4 Topics)
- Module 2: Cybersecurity Risk Management (4 Topics)
- Module 3: Mitigating Cyber Risks and Threats (4 Topics)
- Module 4: Protecting Your Organization (4 Topics)
- Module 5: Cybersecurity Response and Recovery (4 Topics)

3. You should click on **Module 1: Cybersecurity Strategy Fundamentals**. Refer to the image below for more clarification.

The image shows a 'Course Content' section with a list of five modules. Each module entry includes a radio button, the module name, the number of topics, and an 'Expand' button. The first module, 'Module 1: Cybersecurity Strategy Fundamentals', is highlighted with a red rectangular box, and a red arrow points from the right side of the box towards the text. In the top right corner of the 'Course Content' header, there is a red button labeled 'Expand All' with a downward arrow icon.

Module Name	Topics	Action
Module 1: Cybersecurity Strategy Fundamentals	4 Topics	Expand
Module 2: Cybersecurity Risk Management	4 Topics	Expand
Module 3: Mitigating Cyber Risks and Threats	4 Topics	Expand
Module 4: Protecting Your Organization	4 Topics	Expand
Module 5: Cybersecurity Response and Recovery	4 Topics	Expand

4. After you have clicked on [Module 1: Cybersecurity Strategy Fundamentals](#), the page below appears on your screen.

The screenshot shows a course interface. On the left is a navigation sidebar with a red header 'Cybersecurity Strategy and Risk Management'. Below the header, there are four module options, each with a radio button and a '4 Topics' indicator. The first option, 'Module 1: Cybersecurity Strategy Fundamentals', is selected and highlighted in red. The other three options are 'Module 2: Cybersecurity Risk Management', 'Module 3: Mitigating Cyber Risks and Threats', and 'Module 4: Protecting Your Organization'. The main content area on the right features the title 'Module 1: Cybersecurity Strategy Fundamentals' in a large, bold, dark blue font. Below the title is a breadcrumb trail: 'Cybersecurity Strategy and Risk Management > Module 1: Cybersecurity Strategy Fund...' followed by a red 'IN PROGRESS' badge. The main text area contains a paragraph of introductory text about technological integration and its impact on society and industry.

Module 1: Cybersecurity Strategy Fundamentals

Cybersecurity Strategy and Risk Management > Module 1: Cybersecurity Strategy Fund... **IN PROGRESS**

The recent decades have been characterized by a massive integration of technological tools, devices, and solutions, which has significantly affected the lives of individuals, establishments, and governments. Our modern society has embraced the effectiveness and efficiency that technological solutions have provided, but apart from the benefits, the technological dependence that has been developed has also paved the way for a multi-billion-dollar industry which is cybercrime. Initially, the integration of technological tools and solutions was perceived to be related only to the tech industry, but the rapid advancements have made it impossible for business organizations operating in any industry to neglect the business opportunities that technological solutions provide. In the modern industrial landscape, technology comes in many ways, shapes, or forms that emphasize the importance of developing a sufficient understanding of the best solutions that affect your operating market.

5. This is a short description of [Module 1: Cybersecurity Strategy Fundamentals](#). In this case, you should read the content (if any), and scroll down and click on [The Importance of Cybersecurity](#), to view the first topic of this module.

The screenshot shows a course interface for "Cybersecurity Strategy and Risk Management". On the left, a sidebar lists four modules: "Module 1: Cybersecurity Strategy Fundamentals" (4 Topics), "Module 2: Cybersecurity Risk Management" (4 Topics), "Module 3: Mitigating Cyber Risks and Threats" (4 Topics), and "Module 4: Protecting Your Organization" (4 Topics). The main content area features a quote by Barack Obama: "What makes (cyber security) difficult is because it's not just a government problem. It is a private sector and government problem. And there's gotta be a lot more cooperation." Below the quote is a "Lesson Content" section with a progress indicator of "0% COMPLETE | 0/4 Steps". The lesson content list includes: "The Importance of Cybersecurity", "Cybersecurity Strategy and Governance", "Cybersecurity Risks and Threats", and "Cybersecurity Frameworks: NIST". The first item, "The Importance of Cybersecurity", is highlighted with a red box and a red arrow pointing to it. A "Back to Course" link is visible at the bottom of the main content area.

6. If you have clicked on [The Importance of Cybersecurity](#) as instructed, the content below appears. You need to go through the content by reading, memorizing, and scrolling down.

The screenshot displays a course interface for "Cybersecurity Strategy and Risk Management". On the left is a sidebar menu with the following items:

- Module 1: Cybersecurity Strategy Fundamentals (4 Topics) - **Selected**
- The Importance of Cybersecurity
- Cybersecurity Strategy and Governance
- Cybersecurity Risks and Threats
- Cybersecurity Frameworks: NIST
- Module 2: Cybersecurity Risk Management (4 Topics)
- Module 3: Mitigating Cyber Risks and Threats (4 Topics)
- Module 4: Protecting Your Organization (4 Topics)
- Module 5: Cybersecurity Response and

The main content area features the title "The Importance of Cybersecurity" and a breadcrumb trail: "Cybersecurity Strategy and Risk Management > Module 1: Cybersecurity Strategy Fund...". A red "IN PROGRESS" badge is visible next to the breadcrumb. The text below the title reads:

Cybersecurity refers to the practices, processes, and technological bodies for safeguarding programs, systems, and networks from cyber risks and threats. The development of cybersecurity for an organization occurs with the purpose of reducing cyber risks and threats, and to protect the unauthorized utilization and exploitation of technologies, systems, and networks. Organizations in the modern age have digitalized most of their operations and assets for efficiency and effectiveness purposes, but this transition has been met with new risks and threats that come from several malicious sources.

The significance of cybersecurity has been emphasized by the rise of various cyber risks and threats and the increase of cyber threat actors. The technical concepts of cybercrime and cybersecurity are often perceived as complex for non-IT professionals, which is why cybercriminals have long been exploiting the vulnerabilities of organizations that lack a proper cybersecurity strategy that utilizes their available

7. When you have completed reading and memorizing the topic, you should click on the **Mark Complete** button to complete this particular topic.

The screenshot displays a course interface for "Cybersecurity Strategy and Risk Management". On the left is a sidebar with a red header and a list of modules, each with a radio button and a "4 Topics" indicator. The main content area on the right contains two paragraphs of text. At the bottom right of the content area, there is a "Back to Lesson" link and a red "Mark Complete" button with a checkmark icon. A red arrow points from the "Mark Complete" button back towards the text area.

Cybersecurity Strategy and Risk Management

- Module 4: Protecting Your Organization
4 Topics

cybercrime and cybersecurity are often perceived as complex for non-IT professionals, which is why cybercriminals have long been exploiting the vulnerabilities of organizations that lack a proper cybersecurity strategy that utilizes their available capacities to mitigate cyber risks and threats. One of the main security issues that has risen with cyber risks and threats is the non-existence of physical or administrative barriers in the cyber environment, as well as the aspect of anonymity which makes it complex to locate the source. The cyber environment and the real-world are interconnected, as several sources have indicated, technology rarely exists in isolation.

The modern industrial landscape is constantly becoming increasingly dependent on the integrity and security of computer systems, this has risen because of the transition of major industries such as banking, shopping, and communication being conducted through the utilization of technological solutions. Though this has given the users remarkable operating methods, though it has also increased the risks that are associated with this utilization.

[Back to Lesson](#) **Mark Complete** ✓

8. To complete the first module that you are already learning, you should click on the **Mark Complete** button – this means that you have completed the first module. You should do this for all the **Modules & Topics** of the **Cybersecurity Strategy and Risk Management** until the last part, which is the **Final Quiz**.

The screenshot displays a course interface for "Cybersecurity Strategy and Risk Management". On the left, a sidebar lists five modules, each with a "4 Topics" indicator. The main content area features a quote by Barack Obama: "a private sector and government problem. And there's gotta be a lot more cooperation." Below the quote is a "Lesson Content" section with a red header indicating "100% COMPLETE | 4/4 Steps". This section lists four topics, each with a red checkmark: "The Importance of Cybersecurity", "Cybersecurity Strategy and Governance", "Cybersecurity Risks and Threats", and "Cybersecurity Frameworks: NIST". At the bottom of the main content area, there is a "Back to Course" link and a red "Mark Complete" button with a checkmark. A red arrow points from the bottom of the page towards the "Mark Complete" button.

9. The image below shows how you have completed the first module in this case, **Module 1: Cybersecurity Strategy Fundamentals**. As stated above, you should do this process for every **Module & Topic**.

The screenshot displays a course interface for "Cybersecurity Strategy and Risk Management". The sidebar on the left shows a list of modules. "Module 1: Cybersecurity Strategy Fundamentals" is marked as completed with a checkmark and contains 4 topics, all of which are also checked: "The Importance of Cybersecurity", "Cybersecurity Strategy and Governance", "Cybersecurity Risks and Threats", and "Cybersecurity Frameworks: NIST". "Module 2: Cybersecurity Risk Management" is currently selected and marked as "IN PROGRESS" with a red circle and contains 4 topics: "Cybersecurity Economics", "Managing Risks", "Evaluating and Analyzing Risks", and "Available Risk Management Frameworks". "Module 3: Mitigating Cyber Risks and Threats" is listed below but is not yet started.

The main content area for "Module 2: Cybersecurity Risk Management" features a breadcrumb trail: "Cybersecurity Strategy and Risk Management > Module 2: Cybersecurity Risk Manage..." followed by a red "IN PROGRESS" button. The text explains that risk management is an organizational process necessary for organizations with assets to protect. It defines cybersecurity risk management as the practice of prioritizing defensive measures based on potential risks and threats. It notes that the process depends on risk analysis, which is complex to calculate due to many variables. The generic risk equation is given as: $\text{Consequence of attack} \times \text{Likelihood of attack} = \text{Cyber Risk}$. Below this, the text asks "WHAT IS CYBER RISK MANAGEMENT?"

10. When you have completed all the Modules & Topics of the Cybersecurity Strategy and Risk Management online course, the Final Quiz appears immediately on your screen. In order to answer the questions of this online course, you should click the Start Quiz.

The screenshot displays the user interface for the 'Cybersecurity Strategy and Risk Management' course. On the left, a red sidebar contains the course title and a list of six modules, each with a checkmark and '4 Topics' listed below it. The main content area features the heading 'COURSE EVALUATION SURVEY' in large, bold, dark blue letters. Below this heading is a breadcrumb trail: 'Cybersecurity Strategy and Risk Management > COURSE EVALUATION SURVEY'. A red button labeled 'Start Quiz' is positioned below the breadcrumb, enclosed in a red rectangular box. A red arrow points from the right side of the page towards this button.

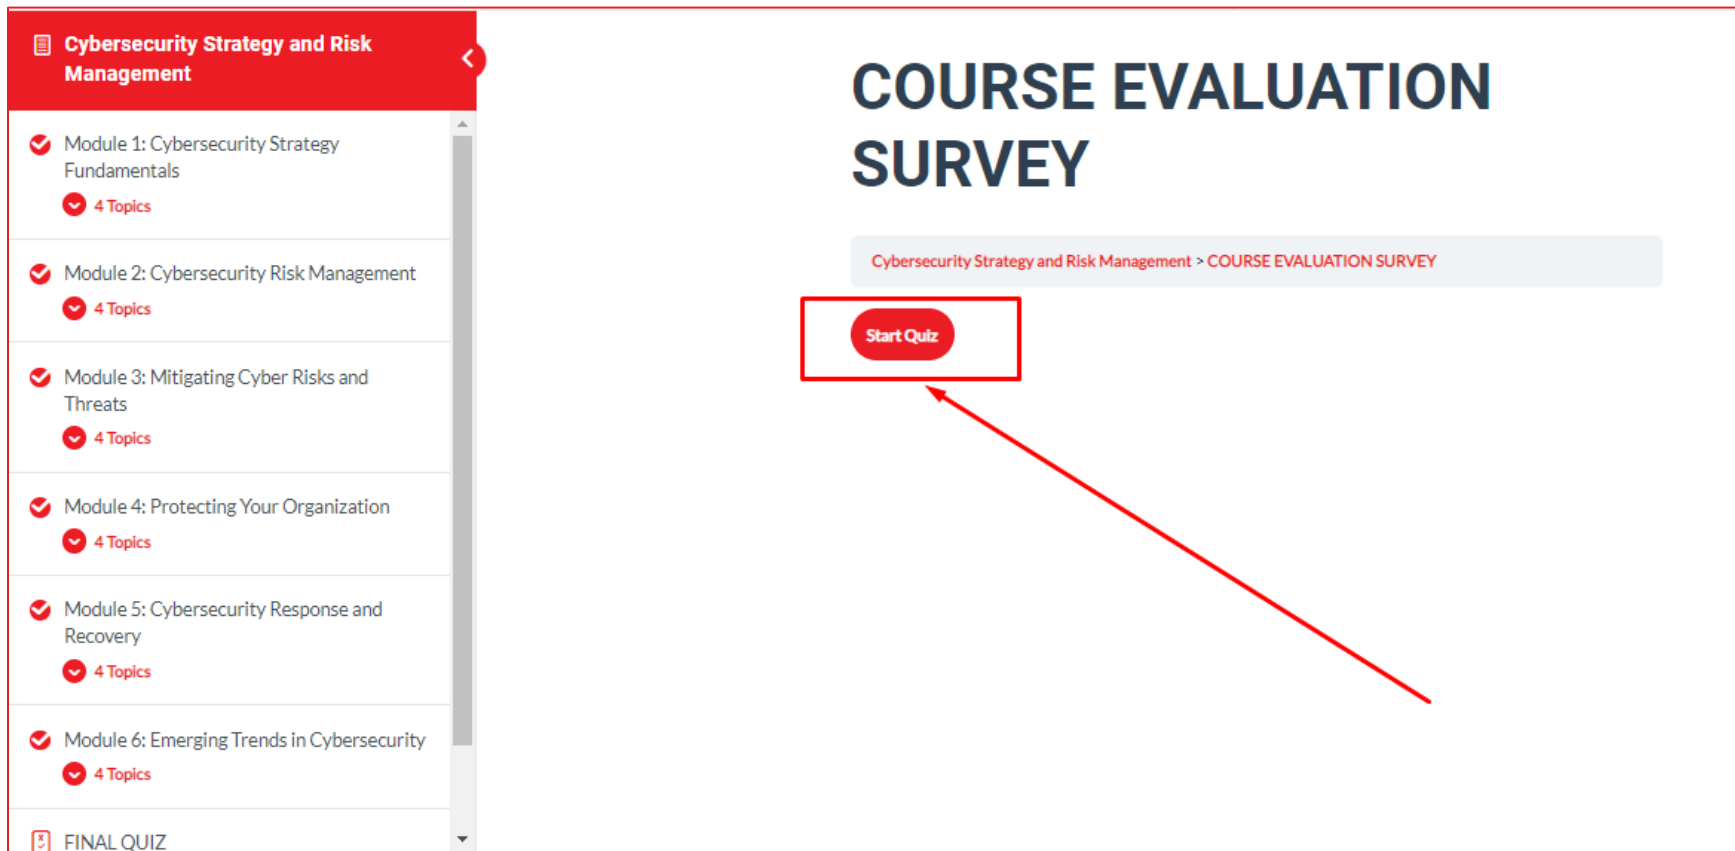

11. After you have clicked on the [Start Quiz](#), you will see the below-presented page and all the questions prepared for this online course. You should click [Next](#) when you answer a question.

The screenshot shows a web interface for a course evaluation survey. On the left is a red sidebar with the course title 'Cybersecurity Strategy and Risk Management' and a list of six modules, each with a checkmark and '4 Topics' below it. The main content area has a breadcrumb trail 'Cybersecurity Strategy and Risk Management > COURSE EVALUATION SURVEY' and a question: '1. Overall, the online course has met my expectations:'. Below the question are five radio button options: 'Strongly agree', 'Agree', 'Neutral', 'Disagree', and 'Strongly Disagree'. At the bottom right, a red 'Next' button is highlighted with a red box and a red arrow pointing to it from the left.

12. After you have answered all the questions presented to you, the button [Click Here to Continue](#) appears. Also, on this page, you can see the percentage of your answers. As we have stated in our description the passing score is [60%](#). In addition, click on the [Click Here to Continue](#) button.

The screenshot displays a course interface for 'Cybersecurity Strategy and Risk Management'. On the left is a navigation menu with a red header and a list of modules, each with a checkmark and '4 Topics'. The 'FINAL QUIZ' is highlighted. The main content area features a large 'FINAL QUIZ' title, a breadcrumb trail, and 'Results' showing '12 of 13 Questions answered correctly' and a time of '00:01:57'. A grey box states 'You have reached 12 of 13 point(s), (92.31%)'. At the bottom, three buttons are visible: 'View Questions', 'Restart Quiz', and 'Click Here to Continue', with the latter being highlighted by a red box and an arrow.

13. In order for CUNITECH Institute to improve this online course, we kindly ask you to complete the [Course Evaluation Survey](#). Please let us know what do you think about this online course. When you finish answering your questions regarding the online course, please [Click Here to Continue](#) button.

The screenshot shows a course interface with a red sidebar on the left and a main content area on the right. The sidebar, titled 'Cybersecurity Strategy and Risk Management', lists six modules, each with a checkmark and '4 Topics' below it: 'Module 1: Cybersecurity Strategy Fundamentals', 'Module 2: Cybersecurity Risk Management', 'Module 3: Mitigating Cyber Risks and Threats', 'Module 4: Protecting Your Organization', 'Module 5: Cybersecurity Response and Recovery', and 'Module 6: Emerging Trends in Cybersecurity'. At the bottom of the sidebar is a 'FINAL QUIZ' button. The main content area features the title 'COURSE EVALUATION SURVEY' in large blue letters. Below the title is a breadcrumb trail: 'Cybersecurity Strategy and Risk Management > COURSE EVALUATION SURVEY'. A red rectangular box highlights a 'Start Quiz' button, with a red arrow pointing from the bottom right towards it.

14. After clicking the button [Click Here to Continue](#), you will be re-directed to the page where you can download your [Certificate of Achievement](#). As we have stated before, you should pass [60%](#) of the questions in order to be able to get your [Certificate of Achievement](#). The certificate can be downloaded by clicking on the [Download Certificate](#) button.

The screenshot shows a course completion interface. At the top, the title "Cybersecurity Strategy and Risk Management" is displayed in large red font. Below the title, a notification box contains a document icon and the text "You've earned a certificate!". To the right of this notification is a red button with a download icon and the text "Download Certificate", which is highlighted by a red arrow. Below the notification box is a progress bar that is 100% complete, with the text "100% COMPLETE Last activity on 28 February 2022 12:36 pm" and a red "COMPLETE" button. At the bottom of the screenshot, the title "Cybersecurity Strategy and Risk Management" is repeated in red font.
